

Karens Epilepsy

Written and illustrated by a high school student with epilepsy, Karens Epilepsy is a 28-page story about a girl with complex-partial seizures. When Karens family moves to a new city, she wonders if her new classmates will befriend her despite her differences. Karen struggles with her own self-acceptance until something unexpected happens. Written with elementary school students in mind, this heart-warming story speaks to both children and adults. With reassuring words and pictures Baltaro communicates a hopeful message of friendship, confidence, and determination.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
