

Family Practice: Treatment of Osteoporosis (Audio-Digest Foundation Family Practice Continuing Medical Education (CME). Book 58)

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners physicians and other healthcare professionals with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Family Practice is specifically designed to provide the participant with state-of-the-art information which builds on the AAFP Core Educational Guidelines, including, but not limited to, the diagnosis and management of: Alcoholism & Substance Abuse Allergy & Immunology Cardiovascular Medicine Conditions of the Eye Conditions of the Musculoskeletal System Conditions of the Nervous System Conditions of the Skin Care of Adolescents & Older Adults HIV Infection/AIDS Human Behavior and Mental Health Nutrition Obstetrics and Gynecology Occupational Medicine Disease Prevention & Health Promotion Rheumatology Risk Management & Medical Liability Sports and Recreational Medicine Urgent and Emergent Care. The goal of this program is to improve management of osteoporosis and review emerging therapies for osteoporosis and breast cancer prevention. After hearing and assimilating this program, the clinician will be better able to:

- 1: Recommend treatment for osteoporosis, based on bone mineral density and absolute risk.
- 2: Counsel patients about adequate vitamin D and calcium supplementation.
- 3: Inform patients about effects of long-term use of bisphosphonates, including risk for atypical fractures and osteonecrosis of the jaw.
- 4: Discuss the efficacy of tamoxifen and raloxifene for prevention of breast cancer.
- 5: Describe emerging therapies, such as newer selective estrogen receptor modulators and use of antisclerostin antibodies.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
