

Count The Helmets: The Story of the 1985 Falcon Football Team

Count the Helmets is the completion of a thirty-year goal to write a highly accurate story about the people that made up the 1985 Afa Falcon football team, its coaches and players, their journey through an extraordinary 12-1 season, and how their shared experiences at the academy resulted in the development of leaders of character, in a culture of commitment, and a climate of respect, ready to serve their country. The success of this book, however, will be measured by how well it helps potential cadets, from every possible culture and background, better understand the culture and values of the Air Force Academy, allowing them to make a better, more informed choice about whether the Afa is the right place for them-or not.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
