

## Good Morning Beautiful : Winning the battle over seizures

At two-and-a-half, Christina was autistic. She didn't speak and had the cognitive ability of an infant. With one-hundred seizures a day, her life was being ripped away by a relentless villain epilepsy. When doctors gave up, we hung on to hope and became her advocates, researching, praying and believing for a miracle. A special diet, with roots in scripture, became the first miracle. Christina proved nothing is impossible when she repeated words to a song, Good Morning Beautiful. Extremely delayed, it was a huge milestone. Her story caught the attention of the national recording artist who recorded the song and prior to brain surgery, people around the world began praying for her. Now seizure and autism free, therapists cite services are no longer needed as Christina's file doesn't match the patient. She made honor roll and still sings Good Morning, Beautiful.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
