

Health-Related Fitness for Grades 1 and 2

The classroom-related programme in each text of the series covering fitness for grades 1-6 provides five 30 minute lessons on lifelong health and fitness that cover nine teaching weeks. In this text teachers can follow the programme outlined or pick and choose activities to incorporate into existing lesson plans for fitness in grades 1 and 2. Features of this hands-on curriculum include: homework assignments with family activities; multicultural and co-operative learning exercises; cross curricular activities designed to stimulate critical thinking skills; 18 reproducible handouts that help to present the concepts; scripts that can be followed to help explain concepts to children; activities based on national frameworks and health standards; and lessons that require no equipment or readily available materials found in the gymnasium or classroom. Part 1 of the text outlines lessons on cardiovascular fitness, strength, endurance, flexibility and nutrition to help prepare students for a healthy lifestyle. Part 2 describes the different kinds of elements needed to teach each lesson including: 15 stretches, 15 warm-ups, 9 cool-downs and 30 exercises.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
