

Spirituality of Leadership

The issue of leadership has recently become a matter of considerable concern in the churches, in other religions, and in the political world. This book explores the nature of leadership and proposes a spirituality which supports authentic leadership. The book is addressed primarily to those who are called to exercise leadership in voluntary or non-governmental agencies and in religious organisations of all kinds. The author holds that they should provide a model of how leadership can be exercised more effectively and more humanely in the business world, in the public services and in politics. The first chapter focuses on key biblical passages which provide a basis for a Christian spirituality of leadership. In the next two chapters the author examines various spiritualities which have been significant in the history of the Christian church. He brings out the surprising fact that there is a strong and consistent democratic tradition within Christianity, in which there is an emphasis on the dialogue of the Spirit with individuals and whole communities. In the next section the author draws out key elements in the thinking of political philosophers and management theorists. This brings him on to the heart of the book where, drawing on all the previous material, he describes four different kinds of leader: the lone leader, the emergent leader, the classic leader, and the power-hungry leader. Next, he outlines five styles or manners in which good leadership is exercised, ranging from empowerment to inspiring and visionary. The final three chapters and the appendix are devoted to a detailed study of one of the key issues for leadership, namely, techniques for individual and communal discernment and the use of intuition in making decisions.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured

interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
