

Lexicon to the Syriac New Testament

The Lexicon to the Syriac New Testament by William Jennings has been a classic reference for over 85 years. This new edition is now coded to the Light of the Word Ministry (LWM) numbering system which is in use in all of its publications. This lexicon refers to Syriac words that are only used in the New Testament and has copious references, dictions, names of person and places and some various readings found in the Curetonian, Sinaitic Palimpsest, Philoxenian and other manuscripts. This quotation is taken from the Jennings original title description. There are also many references to specific verses and the meanings of specific forms of the words as used in the context. This is a very useful tool for Bible students in studying the range of meaning of a particular word.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
