

# The Awareness of Man

This book contains some of the finest writings to come from John Henry Morel yet. In fact, we would doubt if there is anything more powerful than his essay on the evolution of man as discussed in this book. This book also includes several essays on working with higher intelligence and with magistrate level council beings that you will never find in any of his works, including verbage from Lord Khrishna, Jesus the Master, the Demi-Posits, Alpha Posits and more. In fact, you will not only discover direct dialogs with these heavenly beings, but in great detail, discourses between the author and their presences. The Demi-Posit verses are the most remarkable yet from this very high and almighty level of authority in this universe and beyond. There are adamant discussions about higher elementals and other types of sentient intelligence populating this universe and how they interact with man in his development and evolution as a species. The Awareness of Man holds keys for us all, young and old, but is especially relevant to those of us who need specific information on what is going on behind the scenes of all that we experience and all the we perceive. With regards to this author, pretty much nothing is outside of his scope of perception and analysis. He leaves a wide open threshold in his wake, welcoming us to follow with the greatest of ease and the most gentle encouragement. When all is said and done, this book holds some important keys and insights that none of his followers will want to miss. Published by Rodaian Press, Laguna Beach, California. Hardcover.

About the Author John Henry Morel has written over thirty books in the field of higher metaphysics and adaptive psychology. He has written seminal works in the areas of meditation and enlightenment and is particularly known for his Hebrew series, Hebrew Mantras, Volumes 1-3 and Hebrew Geometries,

Volumes 1-3. He has also written several childrens books, including Who Is Me? and Is It True. Mr. Morel is known for his significant contribution to the fields of metaphysical study and advancement of consciousness. His works include The Death of Osiris, The High and the Mighty, How To Find Your Destiny, The Meditation of the Masters, Sky and Ice, and The 26 Trees of Basho.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
