

## Political Economy and Christian Theology Since the Enlightenment: Essays in Intellectual History (Studies in Modern History)

Political economy and Christian theology coexisted happily in the intellectual world of the eighteenth century. During the nineteenth century they came to be seen as incompatible, even mutually hostile. In the twentieth century they went their separate ways and are no longer on speaking terms. These fourteen essays by Anthony Waterman serve as snapshots of the history of this estrangement, and illustrate the gradual replacement of the discourse of theology by that of economics as the rational framework of political debate. Others have recently shown that both political economy and Christian theology are important, though somewhat neglected elements in modern intellectual history. This book is the first to combine these two lines of inquiry.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
