

The Double Wing Perimeter Game

The Double Wing Football Offense Perimeter Game: Background & Installation of the Jet Sweep, Rocket Sweep, & Their Compliments in The Double Wing is a 130-page, 8 1/2" x 11", soft cover book. This book provides a detailed description of the perimeter game with full chapters explaining the background of the Wing-T Jet & Rocket plays and compliments. There are also full chapters explaining the Jet & Rocket attack of the Double Wing. This book is the cumulative product of many other coaches Wing-T and Double Wing systems, including Tim Murphy, Jason Mensing, Mike Jones, and Wes Elrod. This book goes into detail of the evolution and need for the sound Double Wing perimeter attack. These plays and series force opponents to re-change defensive philosophy, away from Power-Stopper defensive tactics. In this book, I discuss how to run these plays, install these series, drill blocking progression, adjust to problem fronts, and use formation variations.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
