

The Salad Garden (Garden Bookshelf)

This comprehensive guide to growing a range of salad plants, and to creating distinctive salads is packed with practical information on how to plant, cultivate and harvest. It includes full descriptions of a wide range of nutritious plants, with preparation and culinary tips too.;This book should appeal to the small-space gardener, as well as those with a bigger plot, as many plants require less room than conventional vegetables and can be integrated into flower beds for a decorative, as well as delicious display. Joy Larkcom is the author of *Oriental Vegetables*, *Vegetables from Small Gardens*, *The Vegetable Garden Displayed* and *Salads Grown for Flavour*.

Abravanel's World of Torah, upon completion, will comprise a multi-volume set of Don Yitzchak Abravanel's commentary to the Five Books of Moses. This series is not a linear translation but rather a methodical, structured interpretation of Abravanel's commentary. It is designed to be read and studied independently or can be used as an excellent guide and helpful companion to the Hebrew original.

Abravanel's World of Torah: Bereshit was originally published by Torah Renaissance Press in 2012. This was followed by a Second Printing (2nd Ed.) in 2013 and a Third Printing in 2014.

Abravanel's World of Torah: Shemot Volume I covers the first six parshiyot in Sefer Shemot. This volume features a systematic translation of Abravanel's classic commentary beginning with Parashat Shemot until the end of Parashat Mishpatim, plus much more.

Abravanel's World of Torah: Shemot Volume II concludes Sefer Shemot. It features an in depth analysis of the Mishkan (Tabernacle), the Thirteen Attributes, and much more.

Vayikra is due out in the Spring of 2017.
